

**Textbook problems** from Stewart *Calculus*, 7th edition.

- §11.4: 6, 7, 13, 14, 16, 18, 21, 22, 24
- §11.5: 5, 7, 12
- §11.6: 3, 5, 6, 8, 10, 12

**No supplementary problems**

**Suggestion:** Try writing down the problems you've solved on the homework on cards, shuffling them up, and then try to guess which tests you should use to solve them. This will help you recognize where different tests come in handy, without having the section number as a guide.
